Cumulative Index of the Journal of the American Planning Association, 1958-1983

Introduction

This cumulative index includes all issues from Volume 24, Number 1 (1958) through Volume 44, Number 4 of the *Journal of the American Institute of Planners* and Volume 45, Number 1 through Volume 49, Number 3 of the *Journal of the American Planning Association* (1983). The first cumulative index for the *Journal*, published in 1958, included all material published from Volume 1 of *City Planning* (1925) through Volume 24, Number 1 of the *Journal of the American Institute of Planners*. That material is not duplicated by this index. Non-cumulative indexes covering several years were also published in 1964, 1967, 1970, and 1974. In addition, the last number of each of Volumes 45 through 48 contains a volume index. Material covered by the non-cumulative and volume indexes is also contained in this index.

During the twenty-six years covered by this index, the *Journal* was edited by eight different individuals and was, at different times, a quarterly and a bi-monthly publication. Below is a table listing the various editors and the corresponding volumes and years of their terms, as well as the frequency of publication for each time period and the number of pages in each volume.

Organization and use

The index is organized in six sections. The first is an alphabetical listing of all articles. This category also includes Pages from the Planner's Notebook, Review Articles and Essays, Interpretations, Commentary, Theoretical and Research Notes, and all other similar items. The second section includes all book reviews and book notes published. Following this are listings of correspondence (letters and comments), plan reviews, editorials, and miscellaneous items not included in the above categories.

Preparation

The index was prepared under the direction of Patricia Stach, Managing Editor of the *Journal* from 1979 through 1983. She was assisted by several graduate students in the Ohio State University Department of City and Regional Planning and by the *Journal's* Editorial Secretaries. Thanks go to former students William Gorp, David Greene, Diana Wilhelm Pollock, Theodore Rieck, Collette Simpson, and Andrew Young, and to secretaries Louise DiMascio, Shelley Green, Marlene Haight, and Linda Markels.
